

WATER SAFETY POLICY

(M)

Mandatory – Quality Area 2

PURPOSE

To ensure the safety and supervision of children in and around water. This includes water play within our activities, near water, drinking water and hygiene practices with water in the service environment.

SCOPE

This policy applies to the Approved Provider, Persons with Management or Control, Nominated Supervisor, Person in Day-to-day Charge, educators, staff, students on placement, volunteers, parents/guardians, children and others attending the programs and activities of Outlets Co-operative Neighbourhood House LTD.

BACKGROUND

We recognise that water poses numerous risks to children and is committed to minimizing the potential risks of water hazards. While recognising these risks, the service also sees the benefits of providing opportunities for children to be involved in water play. Outlets Co-Operative Neighbourhood House LTD is committed to providing children with opportunities to connect with the natural environment.

The supervision and safety of children with and around water is of paramount importance.

Learning spaces and environments should offer an array of possibilities and connect children with natural materials. Water is one experience that offers children sensory-rich, open-ended experiences that engage children's curiosity and imagination. Children may encounter these resources in the service environment and/or when on excursions. These experiences, especially those conducted with and near water, will be carefully supervised ensuring the safety of children and adults.

Water safety relates to access to water in the building, the playground or on excursions, and also to the availability of drinking water for children.

It is imperative that educators remain vigilant in their supervision of children in and around water, and are alert to potential risks in everyday practice in the learning environment.

Drowning is a leading cause of death for children in Victoria, with infants and toddlers the group most at risk. Non-fatal drowning incidents can result in permanent brain damage and disability. Knowledge of potential hazards associated with water will assist educators to provide a safe, stimulating environment for preschool children.

Drowning hazards include large bodies of water such as swimming pools, rivers, creeks, dams and ponds. Smaller bodies of water, including nappy buckets, water containers, pet water bowls and poor drainage which allows water to collect can also present drowning hazards for young children. Children can drown in as little as a few centimetres of water.

Keep Watch is a public education program of Royal Life Saving Society – Australia, aimed at preventing the drowning deaths of children under 5 years of age in all aquatic locations. The program has four key actions:

- **supervise** children constantly around water
- **restrict access** to water hazards by using child-proof barriers and fences
- provide **water awareness** training to children

- **Resuscitation** saves lives – ensure that staff have completed current first aid training.

Legislation and standards

Relevant legislation and standards include but are not limited to:

- *Child Wellbeing and Safety Act 2005* (Vic) (Part 2: Principles for Children)
- *Education and Care Services National Law Act 2010*: Section 167
- *Education and Care Services National Regulations 2011*: Regulations 101(2), 168(2)(a)(iii)
- *National Quality Standard*, Quality Area 2: Children's Health and Safety
 - Standard 2.2: Safety
 - Element 2.2.1. At all times, reasonable precautions and adequate supervision ensure children are protected from harm and hazards.

The most current amendments to listed legislation can be found at:

- Victorian Legislation – Victorian Law Today: <http://www.legislation.vic.gov.au/>
- Commonwealth Legislation – ComLaw: <http://www.comlaw.gov.au/>

DEFINITIONS

The terms defined in this section relate specifically to this policy. For commonly used terms e.g. Approved Provider, Nominated Supervisor, Regulatory Authority etc. refer to the *General Definitions* section of this manual.

Adequate supervision: (In relation to this policy) **supervision** entails all children (individuals and groups) in all areas of the service, being in sight and/or hearing of an educator, at all times, including during toileting, sleep, rest and transition routines. Services are required to comply with the legislative requirements for educator-to-child ratios at all times. Supervision contributes to protecting children from hazards that may emerge in play, including hazards created by the equipment used.

Adequate Supervision refers to constant, active and diligent supervision of every child at the service. Adequate supervision requires that educators are always in a position to observe each child, respond to individual needs, and immediately intervene if necessary. Variables affecting supervision levels include:

- number, age and abilities of children
- number and positioning of educators
- current activity of each child
- areas in which the children are engaged in an activity (visibility and accessibility)
- developmental profile of each child and of the group of children
- experience, knowledge and skill of each educator
- need for educators to move between areas (effective communication strategies).

Approved first aid qualification: A list of approved first aid qualifications, anaphylaxis management and emergency asthma management training is published on the ACECQA website: www.acecqa.gov.au

Hazard: A source or situation with a potential for harm in terms of human injury or ill health, damage to property, damage to the environment or a combination of these.

Notifiable incident: An incident involving workplace health and safety that is required by law to be reported to WorkSafe Victoria. Notification is required for incidents that result in death or serious injury/illness, or dangerous occurrences. For a complete list of incidents that must be reported to

WorkSafe Victoria, refer to the *Guide to Incident Notification* on the WorkSafe Victoria website:
www.worksafe.vic.gov.au

Serious incident: An incident resulting in the death of a child, or an injury, trauma or illness for which the attention of a registered medical practitioner, emergency services or hospital is sought or should have been sought. This also includes an incident in which a child appears to be missing, cannot be accounted for, is removed from the service in contravention of the regulations or is mistakenly locked in/out of the service premises (Regulation 12). A serious incident should be documented in an *Incident, Injury, Trauma and Illness Record* (sample form available on the ACECQA website) as soon as possible and within 24 hours of the incident. The Regulatory Authority (DEECD) must be notified within 24 hours of a serious incident occurring at the service (Regulation 176(2) (a)). Records are required to be retained for the periods specified in Regulation 183.

Water hazard: (in relation to this policy) can lead to drowning or non-fatal drowning incidences. Drowning hazards include large bodies of water such as swimming pools, rivers, creeks, dams and ponds. Smaller bodies of water, including nappy buckets, water containers, pet water bowls and poor drainage which allow water to collect can also present drowning hazards for young children.

PROCEDURES

The Approved Provider or Persons with Management and Control is responsible for:

- ensuring that children are adequately supervised (refer to *Definitions*) at all times when near water hazards (refer to *Definitions*)
- ensuring that educator-to-child ratios are maintained at all times (*Education and Care Services National Law Act 2010*: Sections 169(1)&(3), *Education and Care Services National Regulations 2011*: Regulations 123, 355, 357, 360)
- conducting a risk assessment in relation to any water hazards on or near the premises that may be accessible to children
- ensuring permission is obtained from parents/guardians for an excursion to a location where there is a water hazard (refer to *Excursions and Service Events Policy*)
- ensuring that water hazards and risks associated with water-based activities are considered in a risk assessment prior to conducting excursions and other offsite events (Regulation 101)
- ensuring increased levels of supervision for an excursion to a location where there is a water hazard (refer to *Supervision of Children Policy*)

- conducting a regular safety check of the service premises (refer to *Occupational Health and Safety Policy*)
- ensuring any water hazards that are not able to be adequately supervised at all times are isolated from children by a child-resistant barrier or fence (particularly large bodies of water including swimming pools, rivers, ponds etc.)
- ensuring that an educator with a current approved first aid qualification (refer to *Definitions*) is in attendance and immediately available at all times children are being educated and cared for by the service (Regulation 136)
- ensuring that details of current approved first aid qualifications (refer to *Definitions*) are filed with each staff member's record
- reporting serious incidents (refer to *Definitions*) to DET
- reporting notifiable incidents (refer to *Definitions*) to WorkSafe Victoria
- ensuring that water safety awareness is embedded in the curriculum
- providing current information to parents about water safety.

The Nominated Supervisor or Persons in Day-to-Day Control is responsible for:

- assisting the Approved Provider to implement the *Water Safety Policy*
- ensuring parents/guardians are informed of the *Water Safety Policy* on enrolment
- ensuring permission is obtained from parents/guardians for an excursion to a location where there is a water hazard (refer to *Excursions and Service Events Policy*)
- ensuring information on water safety (refer to *Sources*) is incorporated into the educational program
- ensuring that children are adequately supervised (refer to *Definitions*) and protected from hazards and harm at all times
- ensuring that water hazards and risks associated with water-based activities are considered in a risk assessment prior to conducting excursions and other offsite events (Regulations 100, 101)
- ensuring permission is obtained from parents/guardians for an excursion to a location where there is a water hazard (refer to *Excursions and Service Events Policy*)
- ensuring increased levels of supervision for an excursion to a location where there is a water hazard (refer to *Supervision of Children Policy*)
- ensuring that an educator with a current approved first aid qualification (refer to *Definitions*) is in attendance and immediately available at all times children are being educated and cared for by the service
- ensuring that all educators' current approved first aid qualifications meet the requirements of the National Regulations and are approved by ACECQA (refer to *Administration of First Aid Policy*)
- informing the Approved Provider immediately if any serious or notifiable incidents (refer to *Definitions*) occur at the service.

Educators and other Staff are responsible for:

- providing adequate supervision (refer to *Definitions*) at all times
- undertaking a risk assessment prior to an excursion to a location where there is a significant water hazard (refer to *Excursions and Service Events Policy*)
- adjusting supervision strategies to suit the activities being undertaken (refer to *Supervision of Children Policy*)
- obtaining parental permission for an excursion to a location where there is a water hazard (refer to *Excursions and Service Events Policy*)
- maintaining a current approved first aid qualification (refer to *Definitions*)

- ensuring gates and other barriers restricting access to water hazards are closed at all times and that fences are kept clear at all times
- ensuring that containers of water (including nappy buckets and cleaning buckets) are sealed with child-proof lids
- ensuring wading/paddling pools, water play containers and portable water courses are emptied immediately after each use and stored in a manner that prevents the collection of water when not in use
- checking the outdoor learning environment at the beginning and end of each day for puddles or filled containers that could pose a potential risk to small children after heavy rain
- providing water safety education as a part of the service's program

Educators and other staff in delivering programmed learning experiences are responsible for:

- Provide direction and education about the importance of children's safety in and around water.
- Ensure health and safety practices are incorporated to ensure safe storage of water and water play.
- Utilise water activities in appropriate weather
- Allow the children the opportunity to experiment with water, sand and mixing materials plus a place for boats & floating objects to be used with other water play equipment.
- Monitor the tap and ensure it is turned off securely when not in use
- Always supervise children near water
- Children are never left alone near water
- Ensure water hazards are always supervised.
- Empty wading pools immediately after every use, store to prevent the collection of water, eg. upright, also check the garden after rain or watering and empty water that has collected in holes or containers
- Encourage children to use water effectively and along with staff learn new ways to save and re-use water
- Ensure children always have safe independent access to clean and cool drinking water
- Ensure children are discouraged from drinking from water activities.
- Teach children about staying safe in and around water
- Ensure appropriate educators/child ratios in place Having enough educators present who have first aid or recognised water safety and rescue procedures.
- Educators will discuss with the children the use of water tank water and how it differs from drinking water.
- informing the Approved Provider immediately if any serious or notifiable incidents (refer to *Definitions*) occur at the service.

Important: parents will be notified as soon possible and within 24 hours if their child is involved in an incident/accident at the Service or while under Service care. Also, details of the incident/accident will be recorded on an Incident, Injury, Trauma, and Illness Record.

Important: if the incident/accident, situation, or event presents imminent or severe risk to the health, safety and wellbeing of the child or if an ambulance was called in response to the emergency (not as a precaution) the regulatory authority will be notified within 24 hours.

Parents/guardians are responsible for:

- *supervising children in their care, including siblings*, while attending or assisting at the service
- ensuring that doors, gates and barriers, including playground gates, are closed after entry or exit to prevent access to water hazards

- informing themselves about water safety
- ensuring their children understand the risks associated with water
- recognising when resuscitation is required and obtaining assistance
- considering undertaking approved first aid qualifications, as resuscitation skills save lives.

Volunteers and students, while at the service, are responsible for following this policy and its procedures.

EVALUATION

In order to assess whether the values and purposes of the policy have been achieved, the Approved Provider will:

- regularly seek feedback from educators, staff, parents/guardians, children, management and all affected by the policy regarding its effectiveness
- monitor the implementation, compliance, complaints and incidents in relation to this policy
- keep the policy up to date with current legislation, research, policy and best practice
- revise the policy and procedures as part of the service's policy review cycle, or as required
- notify parents/guardians at least 14 days before making any change to this policy or its procedures.
