Introduction to Computers	Build your IT confidence: for beginners or those looking to refresh skills in accessing information, resources, file management, emails, Microsoft Office, online safety and working with AI.
Learn Digital Devices & Computer Applications	Become tech-savvy and confident with your devices in this beginner-to-intermediate course. You will upskill your IT knowledge across iPhones, Androids, tablets, and computers. Learn to navigate everyday software, social media, online shopping, and government portals while mastering device settings, emails, and file management. Most importantly, stay safe online by learning to back up your files, troubleshoot issues, and protect against scams with essential cybersecurity training.

Skills for Job Seekers	For job seekers at any stage, this course builds practical skills for finding and applying for work. Four modules cover job search skills, applications, interview skills, and online communication platforms.
Sew & Chat	Learn practical sewing skills while building everyday numeracy through measuring, counting and reading simple patterns. Be guided in using a sewing machine, measuring and cutting fabric, and completing creative projects such as tote bags, skirts and basic clothing repairs, all in a supportive, hands-on learning environment.
Learn English for Everyday	Practice English in a relaxed, friendly group. Practice speaking, listening, reading & writing on topics for everyday life.
Make & Mingle	Create, chat & learn together in a relaxed, welcoming craft space. Explore a mix of new and traditional crafts through fortnightly guided sessions, with rotating projects such as mosaics, embroidery, textiles, quilling, neurographic art and more. Fortnightly guided sessions with rotating projects.
Move & Connect	Take time to care for your body and mind in a supportive group setting. Monthly sessions with rotating workshops and activities such as movement, nutrition and wellbeing.
